## PROFESSIONAL SUMMARY

Flutter developer and Computer Science graduate with project experience in BLoC/Cubit, Clean Architecture, REST APIs, Supabase, and Firebase. Builds e-commerce and AI-enabled apps with local persistence and Arabic/English localization. Freelance experience in code review and error analysis.

## TECHNICAL SKILLS

**Mobile:** Dart, Flutter, BLoC/Cubit, Arabic/English localization, onboarding flows  
**APIs & Architecture:** REST APIs, Dio, GetIt, token-based authentication, Clean Architecture  
**Data & Services:** Supabase, Firebase Auth, Firestore, SQLite (Drift/Sqflite), Gemini  
**Engineering:** Git/GitHub, OOP, unit testing, WorkManager, local notifications

## FLUTTER PROJECTS

- [AI Batal Elite](#)*Flutter, Cubit, Supabase, Paymob*
  - Implemented Supabase checkout, Paymob payment initiation and status handling, and Arabic/English localization.
- [Shop Admin](#)*Flutter, Cubit, Clean Architecture, Drift (SQLite)*
  - Built a local-only shop/admin app with reactive storage, catalog management, migrations, and Cubit tests.
- [NutriFix](#)*Flutter, Firebase Authentication, Firestore, Gemini*
  - Integrated Firebase Auth, Firestore profiles, and Gemini meal/workout generation with locally saved plans.
- [Chef App](#)*Flutter, Dart, BLoC/Cubit, Dio, GetIt*
  - Built a cross-platform app with BLoC/Cubit, Dio REST APIs, token-based authentication, GetIt dependency injection, and Arabic/English localization.
- [ChatterBox AI](#)*Flutter, Dart, BLoC, Google Generative AI*
  - Built an AI chat app with Google Generative AI, BLoC state management, onboarding, and scheduled local reminders.
- [ToDo App](#)*Flutter, Dart, BLoC, Sqflite, WorkManager*
  - Built a BLoC-based task manager with Sqflite local storage, WorkManager background scheduling, and local notifications.

## PROFESSIONAL EXPERIENCE

- AI-Driven Code Tasking & PR Readiness Engineer | Freelance***Nov 2024 - Present*

Aligner Platform
  - Reviewed and refined AI-generated code to support code quality and pull request readiness.
  - Analyzed implementation and agent errors across ATC, Code Human Preference, and Agent Error Analysis projects to improve workflow accuracy and consistency.

## EDUCATION

- Bachelor of Computer Science***Apr 2020 - Jun 2024*

Obour High Institute for Management, Informatics & Technology, Egypt  
Grade: Very Good with Honors

## LANGUAGES

Arabic: Native | English: B2 (CEFR)
